

SecureData Courier

Complete confidence when sending confidential information

CitySprint's SecureData Courier service gives you peace of mind when sending confidential data or information within the UK. An experienced CitySprint courier, dedicated to your delivery, collects your package and is responsible for its secure delivery to its destination. The entire journey can be tracked live and in real time, giving you complete confidence and total reassurance of the exact location of your package during its transit.

The SecureData Courier service:

- Priority booking number
- Specialist SecureData Courier support team
- Bookings can be ad-hoc or pre-arranged for a specific time
- Details of courier number, vehicle registration and unique tracking number provided prior to collection
- Experienced security checked CitySprint courier who is dedicated to your journey, wears uniform and carries ID
- Delivery to addressee only
- Packages kept out of sight in locked vehicles
- Live and real time client tracking of the job progress showing the exact map location of the courier
- Tracking history available on courier journey
- Ad hoc bookings collected within 60 minutes
- Confirmation PDF showing job details, recipient signature, date and time emailed to you at time of delivery.

A dedicated SecureData Courier support team is available to take bookings and to help you at any time.

Call the SecureData Courier dedicated team on **0844 888 5848** (London) and **0844 888 9529** (Outside London)
